Mountain Gliding World Cup – “CMVVM”

In 1963, on the aerodrome of Vinon sur Verdon (Southern Alps), AAVA (Association Aéronautique Verdon Alpilles) organized a first gliding meeting which will become the CMVVM.

The 40th of the name took place in 2011. In 2012, AAVA organized the French 15M championship and the 15M, 18M and Open Provence Glide. And in 2013, the 15M, 18M and Open European Championships.

After 9 years of interruption, AAVA was mandated by FFVP (Fédération Française de Vol en Planeur) to organize a FAI Grand Prix in September 2022 (20 gliders).

On the strength of this successful recovery in the organization of competitions, the management team of AAVA offered to reactivate the Mountain Gliding World Cup in 2023 which will thus be the 41st of the name. It invites former foreign pilots to reconnect with this competition and newcomers to come and compete in 18M and Open from July 9 to 15, 2023 on the Vinon sur Verdon platform.

In order to guarantee the safety and healthy atmosphere of the competition, the playing area will be limited to the north by the Maurienne valley and to the west by the Diois.

The objective is to make the CMVVM permanent on the usual dates (first half of July).

See you soon at Vinon and go to:
